

Best Techniques for Fall Photography

Starting point

Mode	Manual
Aperture	F11
Focal Length	Wide (16-35mm)
ISO	100 or 200
Shutter Speed	Adjust for good exposure

* Try different settings. Don't limit yourself.

Make it better

- What is the subject in the photo
- Shoot from many angles
- Use a tripod
- Shoot at sunrise
- Shoot at sunset
- Shoot on a cloudy day

Advanced tips

- Bracket for larger apertures to use focus stacking
- Shoot in RAW for more edit options in post
- Use a polarizer filter
